

**children's
science center™**
EXPLORE. CREATE. INSPIRE.

MISSION TODAY

The Children's Science Center serves over 70,000 visitors each year with hands-on STEM learning opportunities at the Children's Science Center Lab located in Fairfax, Virginia and at community outreach programs across five jurisdictions in the region.

Family Science Night

Traveling program to 50+ schools annually (free for Title 1 schools)

Discovery Days

Subsidized Lab field trips for Title 1 school students

STEM Starter

Subsidized admissions and memberships to at-risk families

Latina Sci Girls

Program to engage Latina youth under-represented in STEM

Budding Scientists

Early education programs for children aged 2-5

Youth Leadership Corps

Leadership program to engage middle and high school youth

VISION FOR TOMORROW

A WORLD-CLASS SCIENCE CENTER IN NORTHERN VIRGINIA

The Future Science Center, located on donated land in Dulles, Virginia, will have a transformative impact on our children and community. Each year over 300,000 visitors, including schools, families and citizens of all ages, will experience awe-inspiring, interactive exhibits and innovative, hands-on programs inside and outside on Kincora's 150 acres of parkland. We are forming a public-private partnership to make this extraordinary and time-limited opportunity a reality.

Pivotal Partnership

Science Museum of Virginia partnership brings:

- Decades of industry experience
- Resources to enable growth and sustainability

Compelling Design

- Master plan by Roto, a leading museum design firm
- Core concepts defined by broad community input
- Facility and galleries that showcase our region's assets and aspirations

Sound Economics

- Fuels future STEM workforce
- Major attraction driving significant new economic impact to region
- Proven business model

MISSION: To inspire a love of learning science, technology, engineering, and mathematics (STEM) by providing unique opportunities to explore and create

We are a local 501(c)(3) non-profit organization.
